OBJECTIVE

Results-oriented Full Stack Developer with a strong foundation in Python, Node, Django, and Java and extensive experience in frontend technologies such as React and Redux. Adept at building RESTful Web Services and working with databases like PostgreSQL and MongoDB. Skilled in problem-solving and passionate about technology, I seek a dynamic role that allows me to apply my technical skills while contributing to team and project success.

SKILLS

- **Programming Languages:** Python, Java, JavaScript, HTML, CSS, Dart
- **Frontend Technologies:** React.js, Redux, Next.js, Tailwind CSS, MUI, AntDesign
- **Backend Technologies:** Node.js, Express.js, Django, RESTful Web Services
- **Databases:** MongoDB, PostgreSQL, Firebase
- **Tools & Frameworks:** Spring Boot[Basics], Docker, Grafana, Terraform, AWS
- **Version Control:** Git, Gitlab, Bitbucket, Jira
- **Operating Systems:** Linux, macOS, Windows

EXPERIENCE

Tata Consultancy Services (TCS)

System Engineer | June 2024 – Present

- Developed automated reports by writing complex Impala SQL queries, improving the accuracy and timeliness of data analysis for various decision-making.

Cognify Digital

Full Stack Consultant | Oct 2022 – Mar 2024

- Built an ETL system enabling real-time data transformation and visualization in Grafana.
- Built a private NPM package with React for code reusability and easy integration across projects.
- Enhanced an Audit System using React.js, Redux, Django, and Docker, adding RESTful web services for document management and budget tracking.

AG Technologies

Full Stack Intern | Jun 2022 – Oct 2022

- Automated financial reports using Automation Anywhere, improving data processing efficiency.
- Developed a web scraper with Python Playwright for organized data extraction.
- Built an HR Management System for resume parsing and dashboard visualization with React.js and Django

EDUCATION

Chandigarh University

Master of Computer Applications (MCA) | CGPA: 7.70 | July 2022 - May 2024

Dev Sanskriti University

Bachelor of Computer Applications (BCA) | CGPA: 8.25 | Aug 2019 – May 2022

PROJECTS

HR Management Tool

Tech Stack: React.js, Python, Django, SQLite, MUI, Redux

- Automated resume extraction, reducing manual data entry by 50% and speeding up hiring processes.
- Built dashboards to enable faster, data-driven HR decisions, boosting operational efficiency.

ETL System

Tech Stack: Python, PostgreSQL, Grafana, Docker, AWS, GCP, Azure, Terraform

- Designed an ETL system, reducing data processing time by 70% and improving data accuracy, enabling faster decision-making.
- Built real-time Grafana dashboards, cutting response time to anomalies by 50% and supporting more timely and informed decisions.

Audit Tool

Tech Stack: React.js, MUI, Python, Django, Docker, PostgreSQL

- Developed RESTful web services for document management and budget tracking, ensuring 100% data security and regulatory compliance.
- Streamlined deployment with Docker, reduced setup time by 40%, and improved user adoption through enhanced document management and budget tracking features.

Cognify Digital Website [\[Link\]](#)

Tech Stack: Next.js, Tailwind, Prisma, PostgreSQL

- Developed a responsive website with improved SEO, using canonical links, sitemaps, and CDN for static assets.
- Created an employee portal with admin/employee roles for generating relieving letters, offer letters, experience letters, and payslips using Prisma and PostgreSQL for backend operations.

Fery Rides: Women Scooty Taxi Application [\[Link\]](#)

Tech Stack: Flutter, Firebase, Google Maps SDK

- Launched a taxi app for women, resulting in a 60% increase in ride bookings within a month.
- Integrated real-time geolocation, enhancing customer satisfaction and driver accountability.

Reusify UI - NPM Package

Tech Stack: React.js, CSS, Rollup

- Created a reusable UI library, cutting development time by 30%.
- Streamlined internal projects by promoting consistency across UI components, significantly accelerating development cycles within the organization.

NoQ: QueueLess Shopping Experience

Tech Stack: Flutter, Firebase, QR Code Operations

- Built a personal queue-less shopping app concept, leveraging QR code scanning for seamless product identification.

CERTIFICATIONS

- 1st Place in Android Fest by Google Developers Student Club, Chandigarh University.
- 3rd Place in Talent Hunt Oct-23 WebDev by Uniford Foundation.
- 1st Place in the National Bench Press Championship by the Indian Powerlifting Federation (2020).
